Energy Management System Certification

Certificate No.：LYEC25N0020R0M

This is to certify that

Shandong Kelesi New Material Technology Co., Ltd

(Unified social credit code：91370724MA3DDBT0XA ）

(Registered address：West of Yinglong Road and North of Longgao Road, Longshan High-tech Industrial Park, Linqu County, Weifang City, Shandong Province)

Energy management system compliance with
GB/T23331-2020 idt
ISO50001:2018 “Energy Management System - Requirements and Guidance”
RB/T 114-2023

System coverage：Energy management activities involved in the processing of polymer resin sheets

Certified address：West of Yinglong Road and North of Longgao Road, Longshan High-tech Industrial Park, Linqu County, Weifang City, Shandong Province

This certificate information can be published in the website of the national certification and accreditation administration committee（www.cnca.gov.cn）. The validity of this certificate can also be confirmed by verifying the certificate.

Validity date：22/2/2028

Signed by：Guan Bin

Issued date：23/2/2025

Shandong Luyuan Energy Certification Technology Engineering Co.,Ltd.

No. 89, Huaneng Road, Licheng District, Jinan, Shandong, China

Energy Management System Certification

Certificate No.：LYEC25N0020R0M

Appendix

This is to certify that

Shandong Kelesi New Material Technology Co., Ltd

Certified address： West of Yinglong Road and North of Longgao Road, Longshan High-tech Industrial Park, Linqu County, Weifang City, Shandong Province

Energy Performance Index & Energy Consumption Calculation Boundary

No.	Products and processes	Accounting interval	Comprehensive energy consumption per unit product
1	Processing of polymer resin sheets	2024-07- 2024-12	746 kgce/ten thousand yuan

Product energy consumption boundary:

Main Production System: using epoxy resin and polymethyl methacrylate as the main raw materials, including mixing, extrusion casting, heating curing, cutting, water polishing, packaging, etc.

Auxiliary production system: power distribution, gas supply, water supply, maintenance, environmental protection systems, etc.

Affiliated production systems: warehousing, internal transportation, office, inspection, etc.

This annex is valid only when used together with the original certificate.
