Revision No. 16; Dated February 23, 2026

REACH DECLARATION & SUBSTANCE INFORMATION

1. We, Greenlam Industries Ltd., hereby declare that our product, High Pressure Decorative Laminates (HPL), is non-hazardous in nature and do not fall into the list of "Deleterious Materials", Appendix J

2. No solvents or prohibited chemical additives listed in REACH SVHC List updated on 04.02.2026, as well as in REACH Restricted Substances List Annexure XVII as of October 2025, including PFOAs and PFOAs related substances in products, are used nor do they exist in any free form in the products supplied by us.

3. Our products do not contain free melamine or toluene exceeding 0.1% of the total product weight.

4. Our process uses different types of Kraft and Decor paper and thermosetting resins. We use Phenols, Melamine and Formalin solutions to make respective resin solutions. The resins are handled and processed such that the emissions from the solutions are minimal and meet OSHA norms. Paper (Cellulose fiber) is impregnated with these resins and converted to a thermosetting HPL. NO ADDED UREA OR UREA FORMALDEHYDE compounds are used/present in our product. No solvents or prohibited chemical additives containing Arsenic, Lead, Cadmium, etc., are added to these resins.

5. Our General Purpose HPLs do not contain compounds of Ammonia and Phosphates in their free form. We do not use any of these during our manufacturing process either.

6. The emissions from the HPL are measured as VOCs and are well within the limits set by Green Guard Indoor Air Quality for building materials. We are also certified by Singapore Green Label. (Certificates can be seen from our site).

7. The product does not contain regulated levels of NTP (National Toxicological Program), IARC (International Agency for Research on Cancer) or OSHA Listed Carcinogens. (Please refer to the SDS sheet on our site)

8. The product does not contain any of the substances from the California Proposition 65 list dated January 3, 2020, in their free form.

9. The products do not contain any traces of Bis(4-chlorophenyl) sulphone (BCPS) and Diphenyl(2,4,6-trimethylbenzoyl) phosphine oxide.

10. Our Fire Rated Products do not contain Triphenyl Phosphate or Halogenated compounds as additives.

11. The Anti-virus, Anti-Bacterial and Anti-Fungal laminates contain biocides that are EPA approved and conform to EU regulations.

12. We neither use nor do any of the inputs during the production process contain any
    a. Asbestos
    b. Copper Chromates & Arsenates compounds
    c. Lead, Antimony, Barium & Selenium or any Heavy Metals
    d. Flame Retardants (Polybrominated Biphenyls/ **PBB**s and Polybrominated diphenyl ethers (**PBDE**)
    e. Organotin (**TBT** and **TPT**)
    f. Chlorinated Paraffins (**SCCP**s)
    g. Per- and polyfluoroalkyl substances (**PFAS**)
    h. N, N-Dimethylacetamide (**DMAC**)
    i. 1-ethylpyrrolidin-2-one (**NEP**)
    j. Decabromodiphenyl ethane **(DBDPE)**
    k. N-hexane
    l. Trifluoro-1-(trifluoromethyl) ethylidene]diphenol

    and the product is free from these constituents.

13. CHS (Cardiovascular Health Study) Classification of the product: Not applicable. Material is classified as non-hazardous.
